

Dear Parents/Carers,

Monster Phonics makes learning fun and more memorable. Rather than relying on rote learning, Monster Phonics uses colour coding to promote understanding, which leads to children becoming confident, independent learners. Confidence builds their passion for school and for life.

We know that children learn best when parents and teachers follow the same methods. Working in the same way is vital for reinforcing learning. So here is some information to help you use the Monster Phonics approach which your child is/maybe following at school.

Monster Phonics accelerates progress. Using this approach at home whenever you are helping your child with phonics or learning spellings will be beneficial.

To help support learning at home, we are providing parent access to Monster Phonics for this academic year. You will be able to open all resources within the programme.

Please contact Rachel Stephens at school for parent login details.

Find out more about how Monster Phonics works. Visit <https://monsterphonics.com/how-it-works/>

Why does it improve learning?

The child learns through the assignment of colour and the linkage of the sound, as well as seeing the colour, creating more ways of remembering the spelling. Your teacher will be using games, songs and activities that continuously reflect this way of learning, so that structure is constantly seen, heard and experienced by your child. This consistency is critical in ensuring that a complicated language is learnt in the most simplistic way. Monster Phonics supports this learning.
